### Online Learning for Lab, Simulation, & Clinical

Webinar Link: [Online Learning for Lab, Simulation, & Clinical](#)

When lab, simulation, and clinical learning are not available or are limited, how can the program still meet student needs? This webinar is designed to walk faculty through use of strategies to help students develop their clinical judgment skills and grow professionally even if they are unable to physically be present in the lab or clinical settings. Key considerations of assessment and board of nursing requirements are also discussed.

#### OBJECTIVES

- Critique learning strategies for replacing in-person lab, simulation, and clinical learning experiences.
- Identify key features of online learning strategies needed to develop clinical judgment skills.

**PRESENTER: Tim Bristol PhD, RN, CNE, ANEF, FAAN** | Tim Bristol is a faculty development, NCLEX, and curriculum design specialist. He has taught at all levels of nursing to include LPN, ADN, BSN, MSN, and PhD. Developing new programs, innovations in learning, Next Gen Clinical Judgment preparation, and helping programs internationally, he is an expert in bringing the evidence-base of nursing, healthcare, and education to students and faculty at all levels.
